

CHANGE NETWORKS

Saturn S1F2

- Press arrow to the left on the red bar at the top of the screen
- Select Menu
- Select exit App
- Type in 00000000 as the password and press sign in
- This will take you to a block of apps
- Swipe up from the middle of the screen and you will see 'System Panel' and select it
- It will ask you for two passwords, both of these are 00000000
- Press the tick to confirm password
- Scroll to the bottom of the screen
- Select 'settings'
- Select network and internet
- Select mobile networks
- Select advanced
- Turn off 'automatically select network' by pressing the slider
- This will build a list
- Select a network manually
- Once successful it will show 4G/3G in top right corner
- Restart the terminal
- This should load into sales app (if it does not, select Castlespay app)
